

Lobbyist For a Day?

California Neurological Alliance

Parkinson Association
Northern California
Until there's a cure...hope and healing everyday.

CalNeuro 2010 Tuesday, March 16th Sheraton Grand Sacramento

The California Neurological Alliance Public Policy Conference (CalNeuro) addresses emerging public policies that affect people with neurological disorders. The one-day conference provides an opportunity to hear from key decision makers and state department directors firsthand in the morning, and visit legislators at the California State Capitol in the afternoon. Conference attendees also will participate in advocacy training with other alliance members.

PANC is a member organization of the California Neurological Alliance which is an advocacy partnership representing millions of Californians affected by neurological conditions, their advocates and their doctors. The coalition's purpose is to improve their quality of life by promoting access to quality health care through education, public awareness and advocacy.

If you have an interest in spending a day learning and lobbying, this is the opportunity for you!

Contact PANC @1-866-979-PANC to volunteer or for more information.
